Subpart D—Tax On Imported Distilled Spirits, Wines, and Beer

DISTILLED SPIRITS

§ 27.40 Distilled spirits.

(a) A tax is imposed on all distilled spirits in customs bonded warehouses or imported into the United States at the rate prescribed by 26 U.S.C. 5001 on each proof gallon and a proportionate tax at a like rate on all fractional parts of each proof gallon. All products of distillation, by whatever name known, which contain distilled spirits, are considered to be distilled spirits and are taxed as such. The tax will be determined at the time of importation, or, if entered into bond, at the time of withdrawal therefrom.

(b) A credit against the tax imposed on distilled spirits by 26 U.S.C. 5001 is allowable under 26 U.S.C. 5010 on each proof gallon of alcohol derived from eligible wine or from eligible flavors which do not exceed 2½ percent of the finished product on a proof gallon basis. The credit is allowable at the time the tax is payable as if it constituted a reduction in the rate of tax.

(c) Where credit against the tax is desired, the person liable for the tax shall establish an effective tax rate in accordance with § 27.41. The effective tax rate established will be applied to each entry.

(Approved by the Office of Management and Budget under control number 1512-0352.)

(Sec. 201, Pub. L. 85-859, 72 Stat. 1314, as amended (26 U.S.C. 5001); Sec. 201, Pub. L. 85-859, 72 Stat. 1356, as amended (26 U.S.C. 5201); Sec. 6, Pub. L. 96-598, 94 Stat. 3488, as amended (26 U.S.C. 5010))

[T.D. ATF-297, 55 FR 18069, Apr. 30, 1990]

§ 27.41 Computation of effective tax rate.

(a) The proprietor shall compute the effective tax rate for distilled spirits containing eligible wine or eligible flavors as the ratio of the numerator and denominator as follows:

(1) The numerator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product (exclusive of distilled spirits derived from eligible flavors), multiplied by the tax rate prescribed by 26 U.S.C. 5001;

(ii) The wine gallons of each eligible wine used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5041(b)(1), (2), or (3), as applicable; and

(iii) The proof gallons of all distilled spirits derived from eligible flavors used in the product, multiplied by the tax rate prescribed by 26 U.S.C. 5001, but only to the extent that such distilled spirits exceed 2½% of the denominator prescribed in paragraph (a)(2) of this section.

(2) The denominator will be the sum of:

(i) The proof gallons of all distilled spirits used in the product, including distilled spirits derived from eligible flavors; and

(ii) The wine gallons of each eligible wine used in the product, multiplied by twice the percentage of alcohol by volume of each, divided by 100.

(b) In determining the effective tax rate, quantities of distilled spirits, eligible wine, and eligible flavors will be expressed to the nearest tenth of a proof gallon. The effective tax rate may be rounded to as many decimal places as the proprietor deems appropriate, provided that, such rate is expressed no less exactly than the rate rounded to the nearest whole cent, and the effective tax rates for all products will be consistently expressed to the same number of decimal places. In such case, if the number is less than five it will be dropped; if it is five or over, a unit will be added.

(c) The following is an example of the use of the formula.

¹Proof gallons by which distilled spirits derived from eligible flavors exceed 2½% of the

total proof gallons in the batch (100.9 - (2½%) × 3.371.8 = 16.6).

BATCH RECORD

Distilled spirits	2249.1 proof gallons.
Eligible wine (14% alcohol by volume)	2265.0 wine gallons.
Eligible wine (19% alcohol by volume)	1020.0 wine gallons.
Eligible flavors	100.9 proof gallons.

$$\frac{2249.1(\$13.50) + 2265.0(\$1.07) + 1020(\$1.57) + 16.6^1(\$13.50)}{2249.1 + 100.9 + (2265.0 \times .28) + (1020 \times .38)} =$$

$$\frac{\$30,362.85 + \$2,423.55 + \$1,601.40 + \$224.10}{2,350.0 + 634.2 + 387.6} = \frac{\$34,611.90}{3,371.8} = \$10.27, \text{ the effective tax rate.}$$

WINES

§ 27.42 Wines.

All wines (including imitation, substandard, or artificial wine, and compounds sold as wine) having not in excess of 24 percent of alcohol by volume, in customs bonded warehouse or imported into the United States are subject to an internal revenue tax at the rates prescribed by law; such tax to be determined at the time of removal from customs custody for consumption or sale. The tax is imposed on each wine gallon and at a like rate on fractional parts of a wine gallon. Fractions of less than one-tenth gallon shall be converted to the nearest one-tenth gallon, and five-hundredths gallon shall be converted to the next full one-tenth gallon. All wines containing more than 24 percent of alcohol by volume shall be classed as distilled spirits and shall be taxed accordingly.

(72 Stat. 1331, as amended; 26 U.S.C. 5041)

[T.D. 6644, 28 FR 3165, Apr. 2, 1963. Redesignated at 40 FR 16835, Apr. 15, 1975]

§ 27.42a Still wines containing carbon dioxide.

Still wines may contain not more than 0.392 gram of carbon dioxide per 100 milliliters of wine; except that a tolerance to this maximum limitation, not to exceed 0.009 gram of carbon diox-

ide per 100 milliliters of wine, will be allowed where the amount of carbon dioxide in excess of 0.392 gram per 100 milliliters of wine was due to mechanical variations which could not be completely controlled under good commercial practices. Such tolerance will not be allowed where it is found that the limitation of 0.392 gram of carbon dioxide per 100 milliliters of wine is continuously or intentionally exceeded.

[T.D. ATF-13, 40 FR 4419, Jan. 30, 1975. Redesignated at 40 FR 16835, Apr. 15, 1975]

LIQUEURS, CORDIALS, AND OTHER COMPOUNDS AND PREPARATIONS

§ 27.43 Liqueurs, cordials, and similar compounds.

A tax is imposed by 26 U.S.C. 5001 on all liqueurs, cordials, and similar compounds, containing distilled spirits, in a customs bonded warehouse or imported into the United States at the rate prescribed in such section on each proof gallon, and a proportionate tax at a like rate on all fractional parts of such proof gallon. The tax shall be determined at the time of importation, or, if entered into bond, at the time of withdrawal therefrom. Fortified or unfortified wines, containing not over 24 percent alcohol by volume, to which sweetening or flavoring materials, but no distilled spirits, have been added are not classified as liqueurs, cordials, or
